"Debra's technique has taken my voice to a whole new level. A level I didn't know I could ever reach.

Thank you, Debra!" -**Kevin Yungman**

Nik Day,

EFY Award Winning Composer

"Working with Debra has been amazing. She is helping me find my true voice and develop my muscles so that I can sing with a lot more control and ease. She not only helps me with my voice, but also inspires me to be a better person. Debra is a great person and it has been a pleasure working with her." -**Nik Day**

Rashida Jordan, Lead Backup singer for Grammy award winning artist Gladys Knight

"Debra's technique has really helped me to discover my voice. I actually enjoy singing now."

-**Rashida Jordan**

Mauli Jr. Bonner,

Vocal Director for Nickelodean, Vocal Coach

As I work out the voice of my clients they find themselves gaining more confidence in themselves as they consequently gain a more authoritative and leadership role in their personal lives. This is due to the authenticity of their Vocal Tone." -**Mauli B**

Oyoyo Joi Bonner,

Broadway Star

"Debra Bonner is an amazing vocal coach, if not the best out there! With this technique and voice lessons from Debra I was accepted in a very competitive Music Dance Theatre Program at BYU and cast in the National Touring Company of Memphis the musical. I know more achievements are bound to come because of my wonderful experience!" -**Oyoyo Bonner**

Clotile

Bonner, Broadway Star, Currently starring in a one woman show on a Mississippi River Boat.

"I have used DebraTone in every performance based professional setting. I used it everyday while performing with the BYU Young Ambassadors for three years. I took it with me as my base vocal routine while touring with the Broadway National Tour of "The Color Purple" -**Clotile Bonner**

"Debra is a miracle worker. Even after the first lesson, I could already feel a change. Out of all of the voice coaches whom I have worked with, she is the only one who has been able to open to eyes to all that I was doing wrong."-**Roxii Henrie (Vocal Sport Winner)**

"I love Debra so much, the change she has instilled in my voice are astronomical!"
-**Molley Pugh**

"...the closest thing I have found to a 'push-button' vocal technique..."
-**Dr. Raymond Zentz**

"Before meeting Debra I endured a lot of teasing. I was an adult that spoke with a very high-pitched voice. I was often compared to minnie mouse and betty boop, etc. Imagine being told at 27 years old to put your parent on the phone to order pizza. And job interviews and auditions, I was always praised on my experience, skill, and being articulate, but I also saw the subtle reactions to my voice, my laugh, and even my sneezes. I was also told on many occasions, in the customer service arena, that despite my skills and prior experience, my voice was hindrance because customers might not take me seriously. With the DebraTone technique, Mrs. Bonner trained me to lower my larynx and by my 28 birthday, I was finally speaking in my natural voice. Of Course, I will always have a bubbly personality, but now, when I mean business, everyone knows it too.

She didn't just give me my voice back, she gave me a new confidence and commanding presence. Not just based on my looks, at the time as a formal model, but as a strong woman in command of her life. Thanks Debra"-**Mimi Velazquez**

"I started out not being able to sing in a chorus. Until I found Debra at my school. I started taking private lessons, I trained everyday; working hard through the technique. I have grown a vocal range and style that helps me to sing all different types of songs. I now have a freedom to express myself through music without having to worry about the voice. I met a lot of great friends through Hollywood launch and we immediately became a family. Now, one year later from where we started a bunch of us are moving to LA to pursue our dreams with managers and agents. I have become my real confident self and walk with my head held high. I now have an education for how things work, and can tell other kids that are starting, how to begin their dreams. I have made many connections with many amazing people because of Debra, a total life changing experience." -**Allison Ivy**

"Debra, I can't even begin to thank you enough. You really are the one who started me on this journey and helped open so many doors for me along the way. I am so excited to see where this next adventure takes me and I can't wait to continue sharing this journey with you! I love you so much mama!"

"I took lessons from Debra, with the goal of being accepted into the Mormon Tabernacle Choir. (I had tried unsuccessfully 2 times before.) She taught me a completely different way of singing- basically doing a mix of "head voice" and "chest voice". I'd always sung strictly in my head voice so this was very foreign to me. As I progressed my voice became stronger and more powerful. I also found I was able to manage my breath much more efficiently and to keep a more even tone throughout phrases, which was something I'd been told, from my choir tryouts, that I needed to work on. Another wonderful result from my lessons with Debra was an improvement in my speaking voice. When I first started, my speaking voice had a scratchy quality to it. That eventually went away through these lessons and my speaking voice moved into a more comfortable register. Also Debra's technique helped me sing through "breaks" or pasagio in my voice.

The good news from all of this is that I achieved my goal and made it into the Mormon Tabernacle Choir! I'm grateful to Debra for helping so much to improve my voice!"-**Susan Rymer**

"I've been performing in musicals for 30 years and of the three elements of being a triple threat I've always struggled with getting my voice to be where I wanted it. I've worked with multiple teachers from various schools of thought and Debra has brought me further than any other teacher I've ever had. Barriers I've struggled with for a decade came crashing down more rapidly than I ever hoped. My range has grown, my resonance has increased, and I've finally learned to secrete to evening my tone and vibrato. I couldn't be happier with the direction my voice is taking."-**Kenneth Wright**

"The first time I met Debra Bonner I knew my life would never be the same. Her vocal technique and instruction have helped take my voice to a place I never thought possible. Her coaching and believe in me, as well as the many opportunities she has given me to perform have all helped me to feel confident. I love performing for and connecting with an audience! Debra has believed in me, encouraged me, and provided opportunities for me such as the Hollywood Launch program, to receive training and showcase my talents in front of top industry professionals. All of this has led to me having representation in Hollywood where I am currently pursuing an acting and music career. I can never thank Debra enough for her love, support, and all that she has taught me as both a performer and a person."-**Remi Peatross**

"I first met Debra in my Junior year in High School and I began to take singing lessons, but I couldn't continue because my life got busy. A few years later I found Debra on the internet. I was looking for a way to strengthen my voice because I had a very soft and quiet voice since I was 12. When I read a few testimonials I decided to give her program another try. It was interesting from the start. I was finding a singing voice I didn't know I had and I was developing a stronger speaking voice as I continued to learn with Debra. Before I took lessons from Debra I would be asked to repeat something I said about 5 or 6 times, and with each time I felt like I was yelling. As my lessons went on people stopped asking me to repeat myself and everyone is amazed with the change in my voice. Now I have a clear strong voice and I'm more confident when I talk to people. I'm grateful I took singing lessons from Debra. I've loved every minute of my lessons because I've learned something new every time. I look forward to continue taking singing lessons with Debra."-**Jamieson**

"Dear Debra, I'm writing to you to let you know how you have changed and blessed my life. You have taught me so much about singing and music and how it applies in our lives. I appreciate you for helping me find my passion for singing and for teaching me to understand the love music creates. You helped me understand that singing is my life. It has always been my passion in life and I had let it go and ignored it. I pushed away my own passion and love for singing by blaming it for my sadness and loneliness I was feeling in high school. You used to have me sing and then you would keep explaining to me to just close my eyes and just feel the music and just let it flow through me and to just let me flow with the music instead of trying to control it. I learned from you how much the Spirit is in the music you sing and share with the world. When you sing with your heart and soul the Spirit will fill the hearts of those you sing to. You built up my confidence and self-esteem. You wouldn't hold anything back. If I messed up or wasn't doing something right you would tell me, you wouldn't beat around the bush and it would encourage me to work harder and to feel what my muscles were doing. When I did something correct you would tell me exactly what I did and if I looked hesitant, you would see that and give me a serious but loving look and repeat yourself. It led me to gain the confidence in myself and to not doubt myself so much. '(it built my voice muscles up so much and I had never sung like that before. And now I

still sing with the techniques you taught me. Teaching my family has been such an amazing experience! I didn't even know my family had such good voices, and you gave them the confidence to sing out loud and proud to the world! I have had so much fun with my family, singing with them and just having fun and sharing the love. My brothers and I sing in church and we love singing Happy Birthday to people! You have brought my family closer together. The love that is shared between my family members has grown closer and stronger. I can't even express the joy I feel from that incredible experience that I was blessed to work with you. I knew before how much I loved music, but having you work with my family and I made me realize how much our love for each other has grown, and the love for ourselves, and those around us. Your example of love for your family, life, the Gospel, music, and singing is such an inspiration to me! You have blessed my entire family with your ability and knowledge and I am so grateful for it. particularly love the confidence you have helped my mother find within herself, I have treasured the moments that I have seen of her singing and her love for the world around her. Thank you so much for helping me understand my love for music."-**Anna Marie**

"I was only your student for a few months, but it changed me in so many ways. When I came to you, I had severe depression, an eating disorder, and self harm issues. But through the music and confidence I built in myself, I started to see myself change. I cared about my body. I cared about my school work again. I cared about my family again & held onto them closer than ever before. I knew I wasn't going to sing professionally, but the experience was almost better. I found my voice, my self, and the life I wanted to live. You & these lessons really did change my life. And I will forever be grateful for that and the time I got to spend training with you.

Those lessons were my escape from the world. I only truly feel like myself when I'm singing. And you helped me discover that."-**Hayley Robertson**

"Debra's program has helped me discover my love of music. It put me in a situation where I was best heard. Many of the people who I met through her program became lifelong friends. We stood and still stand as a whole group in support of our other fellow performers. Debra has a gift for gathering and cultivating natural talent and putting them right where we can be discovered. Whether those talents readied in music, acting, modeling or dance. My brother and I both attended her class. My brother was very shy at first but through the programs welcoming arms, and a kind push from Mrs. Bonner herself. He has been seen on many stages. We are so very grateful to the Bonner family, which we have all felt apart of in one way or another. Love Hayley."-**Hayley Black**
